

The U.S. Patented Armor Wall is the first truly discrete high-threat barrier system for VIP and high profile environments. Covered in your choice of laminates, the Armor Wall can blend nicely with its surroundings, enhancing its covert status. The Armor Wall can be used as a temporary or permanent ballistic barrier for offices, courtrooms, banks, safe rooms, storm shelters, police stations, government facilities and VIP podium protection.

Large 86" x 44" area of protection

Choice of NIJ 3 or NIJ 4 Threat Level Protection

NIJ 4 Threat Level reinforced frame allows walls to link together to create a continuous barrier or hardened perimeter

Rolling transport case, storage tray, caster wheels, 90 degree frame links, ballistic viewport and gunport options available

The Armor Wall system is also available as a Single Ballistic Panel (SBP) system if a smaller area of protection is required

Choose from a variety of design and color options for the front/strike face of your Armor Wall System or SBP Kit. Contact a Patriot3 representative for details about exact environment matching
