FLEXSHIELD

WWW.PATRIOT3.COM

The US Patented Flex Shield is the ideal shield for your patrol needs. The fastest, deployable personal protection shield on the market, the Flex Shield can be deployed in seconds. This compact & portable option provides the officer enhanced bullet resistance, fragmentation protection and trauma mitigation within arms reach. Its versatile in both rigid and non-rigid configurations and rolls up for convenient transportation and storage.

Dual Interlocking Pole System for optional rigid shield configuration

Velcro straps for patrol car door mounting and added pole storage retention strength

Two D-rings for optional J&N Tactical® Quick-Release Shield Sling

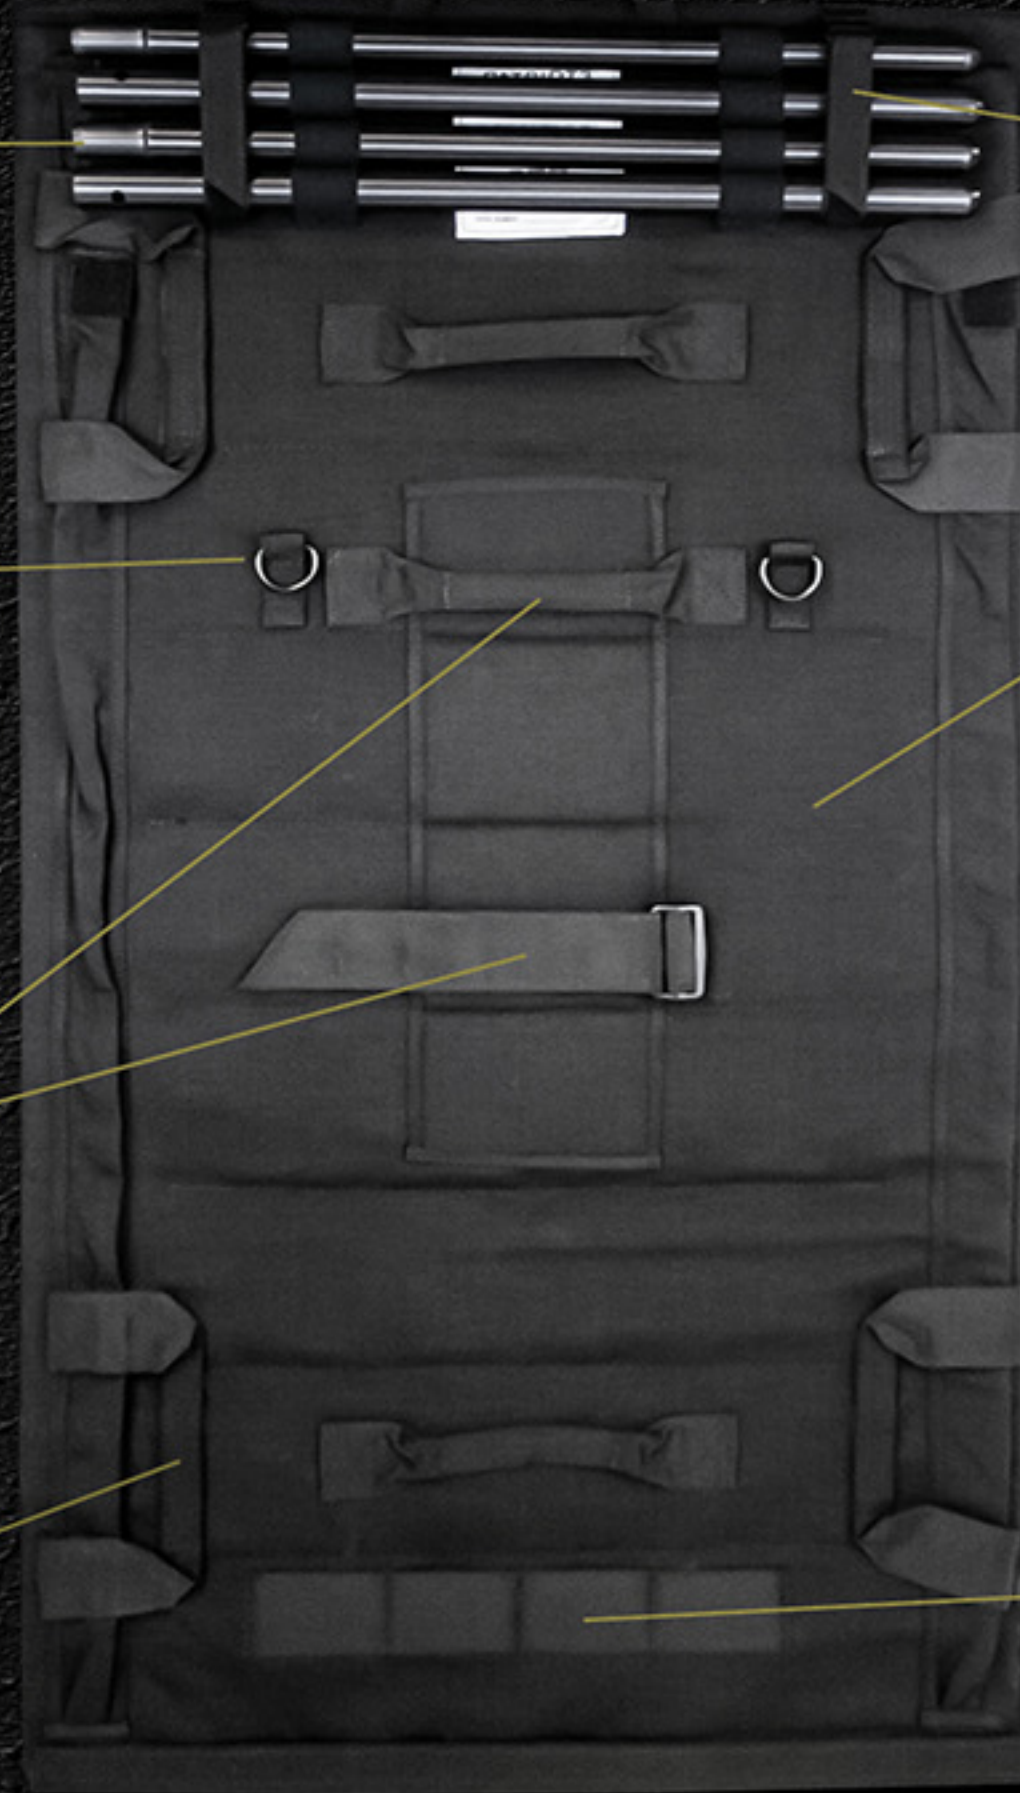

CORDURA® Nylon outershell protects ballistic material from abrasion, moisture, UV exposure & degradation

3 grab handle options and 1 adjustable forearm strap for increased stability

4 additional edge handles allows shield to be used as a K-9 hoist, field litter and improves overall versatility

MOLLE strip provides convenient storage for miscellaneous items such as cuffs or flashlights
