## Upgrade Your Jetboots with Dive Tablet 2

Shark Marine Technologies Inc. and Patriot3 Maritime are proud to announce an intergration between DIVELOG and Jetboots Diver Propulsion System.

This integration allows operators using one of Shark Marine's Diver Navigation Systems and Jetboots to:

- Precisly set the Jetboots speed using an on screen display- (setting the speed automatically starts dead reckoning in DIVELOG)
- Compensate for battery voltage drop-
- View Jetboots' battery status-
- Calculates time/distance remaining-
- Program different kit configurations-

Operators have access to the most accurate Sub-Sea navigation available using Shark Marine's Navigator, DIVE TABLET 2 or E-TAC
