

The Patriot3 CRRC Navigation Boards act as a “Dashboard” for your military inflatable boat by providing a central location for mission critical navigation and timing devices.

The CRRC Nav Board is made of durable Kydex and features multiple accessory slots with rubber retention bands and a shrouded LED backlit compass. The Classic CRRC Nav Board includes four pre-installed bungee cords with stainless steel clips for universal mounting to the vessel.

CLASSIC NAV BOARD

- Shrouded phosphorescent SUUNTO compass
- Submersible up to 150 feet
- Suitable for extreme temperatures
- Multiple accessory slots with rubber retention bands
- Waterproof disposable LED/Runtime 120+ hours
- Available light colors: Red, Blue or Green

Now features an ambidextrous face for port and starboard side mounting
